

## **KEEP USABLE ITEMS OUT OF THE TRASH STREAM**

### **DROP THEM OFF AT THE SWAP SPOT at BULKY WASTE**

Held on a Friday & Saturday in April, July, and October each year – watch web for dates!

Murdoch Property, Route 101

**Pomfret's Swap Spot** at Bulky Waste drop-off days is one of the smartest ways to keep items out of the trash stream.

We accept usable items in good condition:

- household, back yard, and garage items too good to toss
- no longer used items stored in attics and basements
- furniture
- tools
- sports equipment
- bicycles
- collectibles

Unfortunately, there are some items we cannot accept:

- TVs and electronics (unless new)
- bathroom fixtures (unless new)
- holiday decorations
- sleep sofas
- old-style storm windows

**Our ultimate goal** is to collect drop-offs and hold in a dry, protected building so the Swap Spot becomes the first place to look for something before heading to the store. Unfortunately, we currently have no storage and only two days in April, July, and October. So, for the foreseeable future:

- come early
- drop off and/or look for something you could use
- and remember, everything is free!

**ALSO:** Swap Spot collects good and repairable bicycles for the Little Angels Program in Willimantic, where the bikes are renewed and given to new riders at no charge.
