

**TOWN OF POMFRET HIGHWAY DEPARTMENT**  
**POLICY CONCERNING POTHOLES**

**Pot-holes are created by a freeze-thaw cycle. The surface beneath the asphalt will heave which causes a fracture in the pavement. Material will then pull through and below the crack which leaves a void beneath the pavement. This causes a permanent collapse.**

**The Town has no control over this freeze-thaw cycle but address pot-holes in a timely manner.**

**The Town of Pomfret does not assume any liability for any damages caused to any type of personal property due to pot-holes.**

**Policy approved by the Board of Selectmen on: May 2, 2011**
