6. CITIZEN’S COMMENTS:
   A. N. Thibeault from Killingly Engineering submitted plans for a single-family home in the lot at the corner of Kearney and Rte. 169. The subdivision was approved in 1991. J. Theroux delineated the wetlands. They will combine 2 lots to make 1. They would like the entrance off of Kearney Road. There will be disturbance to approximately 400’ of wetlands. The septic system needs modifying. A pond will be included in the application. The spoils will need to be taken off site. Discussion regarding abandoning the old well and how it is to be handled following State instructions. They believe a new utility service will need to be run. As to what well will be used, they are not sure yet. They hope that the existing well will be sufficient.
   B. William Gould had questions for the commission. He had issues on his property after all the torrential rains. Wants to know if he needs an application for a 4’ wide trench (approximately 80 sf of disturbance). Jamie said yes and Ryan mentioned it could be either significant or maintenance. W. Gould signed a document stating this was just a preliminary discussion.
